ANNOUNCEMENT

based on the provisions of ANRE Order no. 76/2017

Starting with 31.03.2020 for the delivery day 01.04.2020, the data that the license holders have to transmit to the TSO based on the provisions of ANRE Order no. 76/2017, will be uploaded using the new web interface to access the dedicated platform <https://o76.teletrans.ro>, according to the information available on the login page of the platform <https://o76.teletrans.ro>. Due to the existing situation at national level regarding the new coronavirus and considering that up to this moment the number of license holders registered at the new web interface is still a small one, the old web interface (<https://ordin76.teletrans.ro>) will be also available, until 31.05.2020. Note that if the data is uploaded using the new interface, it does not need to be uploaded once again via the old interface.

For registration as a data provider through the new interface, various additional information and problems arising from using the platform, please use the e-mail address ord76@transelectrica.ro.
