

Announcement regarding the use of cross-border electricity import and export capacities obtained from explicit allocation auctions

Considering the repeal of the provisions of ANAF Order no. 6341/2006 for the approval of the Technical Norms regarding the simplified procedure for completing customs formalities for the release into free circulation and export of press, printed matter, electricity and goods transported through pipelines, the Compania Națională de Transport al Energiei Electrice „Transelectrica” - S.A. eliminates the transmission to participation of electricity. for the following documents:

- the situation of physical exchanges on the interconnection line(s),
- the situation of exchanges of a technical nature and the situation of commercial exchanges that are the subject of the customs declaration.
